Response to Appeal Brief

1. In view of Applicant's arguments in the Appeal Brief, the finality of the last Office action is withdrawn and prosecution is reopened.

Claim Rejections - 35 USC § 112

2. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

3. Regarding claims 1-6, and 8, the words "latter," "it," and "his" render the claim(s) indefinite because the claim(s) include(s) elements that are not acceptable for example in line 5, "latter" is used to instead of "said mobile device", in line 6, "it" seems to replace a payment demand, in line 7, "latter" is used to replace the "payment instruction, and in line 12, "this" is used to replace the result.

Regarding claim 9, line 5, "it" is used to replace payment and in line 10, "this means" is not acceptable since it is not clear which means Applicant is referring to. These terms render the claims indefinite because it is difficult for one skilled in the art reading the claim to figure out the meaning of those terms.

For example, Applicant can use the terms "said mobile device" instead of "the latter" in line 5, in line 6, "generate from said result would have been a better choice than "generate from it", and so on.

Correction is required.

Art Unit: 3627

As to claim 10, Applicant is requested to reconsider the rejection of claim 10 in view of Smith et al because in order for this case to be considered for issuance, claim 10 being the broadest claim in the application must be canceled.
